

ZENITH INDUSTRIES

An ISO 9001:2015 Certified Company

OLD TIMER MOPED & MOTORCYCLE PARTS

COMPANY PROFILE

Company Profile :

As our Company introduction - would like to introduce our self as Two wheeler parts (Scooter & Moped parts) manufacture and exporter by the Name of ZENITH INDUSTRIES as ISO 9001-2015 certified company located at Roorkee, State Uttarakhand, INDIA established in the year 1993, Zenith Industries is manufacturing , exporting and supplying automobile parts to many countries. our products are well accepted worldwide. Our major areas of focus are scooter, motorcycle and moped :engine parts, body parts, accessories, rubber parts and restoration or modification parts. Our products are well accepted for Gilera, Hercules, Honda, Husqvarna, Kreidler, KTM Rex, MCB, Monark, Crescent, Mustang, Piaggio, Ciao, Puch, Rex, Pilot, Sachs, Solex, Tomos, Vespa, Yamaha, Zundapp, MZ, Jawa , Simson, and other mopeds.

We have been a manufacturer supply of parts to many companies worldwide.

We are specialized in customized development of parts as per our buyer's requirements or samples.

Infrastructure :

The state-of-the art infrastructure of Zenith Industries continuously inspires the organization to manufacture quality products that meets the international standards. We have been supplying high end and efficient automobile components from last two decades in the both national and international markets. This couldn't be possible without an efficient supply chain and we have the most efficient logistics department to supply our products in nooks and corners of the globe. Manufacturing companies with a competent logistics department always have an upper hand as it maximizes the feasibility of their product among masses.

In the arena of infrastructure development, Zenith has proved its strength with Roorkee manufacturing unit in compliance with the advanced industry standards. There are two catches to the infrastructure development of a manufacturing organization. The first is that producing goods that are exceptionally high in quality and apparently meet all the quality standards made by global bodies.

Here at Zenith, you would find a tremendous campus that enables us to go beyond the excellence. It's true in all senses that without a vibrant infrastructure a company can't grow to its full extent. We understand and impart the continuous changes in the manufacturing industry so that our products remain on the top. We take care of all environment aspects while manufacturing our products that keeps us maintain greenery in the surroundings.

A team of highly dedicated and experienced professionals is another key factor that enable us to offer quality assured products to our customers. Furthermore, our logistics staff rigorously work round the clock to ensure timely delivery of the products to the end users. We are not only concerned about the infrastructure developments, in fact our approach is continuously stay update with the robust Information Technology (IT) system. There is always a need to potentially update the infrastructure and that's what define Zenith Industries as leader in the market.

OUR MANUFACTURING FACILITY

TOOLS

Flywheel Puller
Puch/Zundapp/Kreidler/Sachs- 26X1.5, 22X1.5

Flywheel Puller
Honda/Yamaha all models-27X1mm

Flywheel Puller
Sachs/Motoplat- 26X1.5, 27X1.25

Flywheel Puller
M 26 X 1mm

Flywheel Puller
M 24 X 1mm

Flywheel Puller For electronic ignition of
Zundapp/Kreidler M 19X1, M 22X1.5

Flywheel Puller for Puch, Kreidler, Zundapp &
Mopeds and more and more-26mm x 1.5mm

Flywheel Puller for MONTESA 4RT

Flywheel Puller for KTM 27X1.25mm

Flywheel puller_M30X1

This tool makes installing cylinder,
intake, and exhaust studs a breeze.

Flywheel Puller - 20X1 mm

Puch Powerdynamo Race
CDI Puller - 27x1.25mm

Flywheel puller_m27x1_left_thread_
and_24x1_right_thread

This puller is for all CEV brand magnetos,
found on most Italian moped models - 19x1mm

Puller for pretty much any Moped
clutch that takes two bolts to remove it

Honda Hobbitt, Camino, PA 50,
and Derbi variator and clutch puller

TOOLS
